Join your fellow professionals, and community and business leaders, and learn how Rotary can fit in your future. Experience Rotary Making A Difference!

### Upcoming Program

## President & COO of Snap Tech IT will be speaking at the Rotary Club of Sandy Springs

On Monday, October 21st

Shawn Brown is a passionate entrepreneur, executive, and leader that focuses on teamwork, culture, vision and strategic thinking. He has a passion for working with organizations and helping them achieve their goals while providing excellent customer service.

Shawn joined Snap Tech IT in 2007 and currently serves as the President & COO. He is a visionary and helped transform Snap Tech IT from a break fix technology provider to one of the fastest growing security focused Managed Service Providers (MSP) in the world. He brings over 25 years of technology and management experience in working with fortune 500 companies as well as companies in the Small and Medium (SMB) market. Shawn Brown has helped expand Snap Tech IT nationwide with offices in Atlanta, Phoenix, and San Francisco. He also serves as the company Chief Information Security Officer (CISO) and oversees the company's SOC 2 Type 2 annual audit.

Shawn has a Bachelor of Business Administration in Business Information Systems from the University of West Georgia in Carrollton Georgia. Shawn is also an active Rotarian and Past-President of the Lanier-Forsyth Rotary Club.

When Shawn is not at work, you will find him with his wife Shelly and his two kids, Jake and Haley. His weekends are filled with kid's soccer games or rounds of golf with his son.

Please come visit the Rotary Club of Sandy Springs Monday afternoon, enjoy lunch on us and bring all your computer security questions.

More information about Snaptech IT can be found here: <https://www.snaptechit.com/>

## advice in dealing with Alzheimer's Disease and more

On Monday, October 14, Dr. Laura Szymanski, Research Coordinator at NeuroStudies quizzed the Sandy Springs Rotarians on many questions pertaining to the health of our brains. One question she asked was about risk factors: "Fact or Fiction? - by age 85, people have a nearly 50/50 chance of developing Alzheimer's Disease." She proclaimed the last statement to be a fact and went on to explain their findings through studies and data accumulation. A second quiz question she offered was: "Fact or Fiction? - If a mom had Alzheimer's, that means I am going to get it too." This, she told us, was fiction and again showed data which supported her answer. One of her last questions was this: "Factor or Fiction? - There are health supplements which have been proven to improve memory." That statement is fiction, she says. She noted that there have been absolutely no supplements that have been proven to help improve our memory, but she also stipulates there are perhaps substances that do work, but no one has been actually able to prove it.

Dr. Szymanski, explained how NeuroStudies conducts it's research as well asked each of us if we were willing participate. NeuroStudies does research on a variety of brain related subjects including, Alzheimer's disease, Dementia, ADHD, Migraine, Parkinson's disease, Neuropathy, Neuralgia and Mild cognitive impairment.
