ROTARY CLUB OF

Roswell Rotary Energy Message from President

Bunny Shirt Recipients Goal: Every Club Member!

****Rotary Members Show Strong Participation and Service in First Quarter****

Roswell Rotary Club is off to a fantastic start this year! We are thrilled to announce that 130 members have already received their Bunny shirts, showing great enthusiasm and unity within the club. With 228 members in total, there's still a chance to grab your Bunny shirt in the coming weeks. Let's aim for 100% participation!

Beyond the shirts, we're also celebrating the incredible dedication of our members, who have actively engaged in over 15 service projects during the first quarter alone. From local community efforts to international outreach, your hard work is making a real impact. Thank you to everyone who has stepped up to make a difference. Let's keep up the momentum and continue to lead by example in service and fellowship!

****Cybersecurity Talk****

Last week's Rotary meeting featured an enlightening presentation on the critical topic of cybersecurity. Tony, an expert in the field, provided valuable insights into how individuals and businesses can protect themselves from the growing threat of cyberattacks. Thank you to all who attended and to our guest speaker for such a valuable session. As we continue to engage with important issues like cybersecurity, we remain committed to empowering our members with the knowledge and resources they need to navigate today's challenges.

Help Rotarians Recover

Your donations will go to support Rotarian lead relief efforts in the hardest hit areas

How can we help with supplies?

As Rotarians we want to spring into action, collect supplies and drive them to those in need ASAP. Instead, your donation allows us to procure pallets of supplies and add them to GEMA or FEMA tractor trailer loads of supplies headed to disaster areas from the FODAC warehouse.

What will my donation go towards?

Here is an idea of some of the items your donation will allow us to get to those in need:

\$10 Disposable Grill	\$25 Paper Towels	\$50 Baby Formula	\$100 15 Meal Kits
\$250 Chainsaw	\$500 Pallet of Water	\$750 Generator	\$1000 Supply Delivery

For news on projects as they are organized: [CLICK HERE](#)

There is an effort being organized for Oct. 30 - Nov. 4. So far we have heard they need people with trailers. And who have their own resources-food, water, place to sleep. It's a true disaster area at this point in the recovery.

Yech. Why is Tofu served for lunch?

How did you get so far in life with doing or trying something different? In business and family. Most of weren't born into Rotary; we had to try it out.

Typical objections are texture and lack of taste. Lack of taste is easy: Juan and crew put a flavorful sauce on it...or you can eat it with any other more flavorful food on your plate -- including any salad item/dressing.

For texture, give Juan's crew's effort a chance. It is firm yet soft. Ready to be partnered with nearly anything else on your plate.

Why? We all have an increased need for **protein** as we age (more fried chicken....or, you guessed it, tofu) because:

- During Recovery from Illness or Surgery, the body needs more protein to repair tissues and support the immune system.
- Physical Training and Muscle Building, require more protein to repair and build muscle tissue, support recovery, and enhance performance.
- Adult 65+ become less efficient at using protein, and muscle mass naturally decreases (a condition known as sarcopenia). To counteract this, higher protein intake can help preserve muscle mass, support bone health, and reduce the risk of frailty.

Tofu, a popular plant-based protein made from soybeans, offers several health benefits

- Rich Source of Protein
- Low in Calories and Fat....and cholesterol-free
- Rich in Nutrients such as calcium, iron, magnesium, and phosphorus.
- Contains Antioxidants: Tofu contains antioxidants, which can help reduce inflammation and protect against chronic diseases like cancer and heart disease.
- Supports Blood Sugar Control
- May Support Hormonal Balance

Think again. Eat more protein.
