

CLUB ROTARIO QUEVEDO

***NEONATAL AREA EQUIPMENT OF THE MATERNITY HOSPITAL
"PEDRO MARTINETTI NAVAS" OF THE "CHILDREN IN HANDS
OF ROTARY" FOUNDATION OF THE QUEVEDO ROTARY CLUB.***

INTRODUCTION

The Quevedo Rotary Club was founded in 1970 and has been doing community service for 45 years since it started.

During its active service period, the club has focused its main efforts to help the adjacent community through projects in the fields of Prevention and Treatment of Diseases and Maternal and Infant health.

In order to achieve this, the club counts with the daily hospital "Pedro Martinetti Navas", which offers services in external medical consultations in different specializations such as Pediatrics, Gynecology, Neonatology, Orthopedics, Chiropractic, Dentistry and Pharmacy Service.

PROJECT LOCATION

- ✓ Quevedo is a city located in Los Ríos province, in the Coast region.
- ✓ Is 237 km away from the capital Quito and 183 km away from Guayaquil.
- ✓ Its weather is tropical/hot and the main productive activity is agriculture.
- ✓ The city, nowadays, has a total population of 150 827 inhabitants.

OBJECTIVES

Provide the best medical care during a very transcendental moment in life such as birth.

Avoid complications like hypoxia or neonatal asphyxia, which with the past of the time provoke cerebral hemorrhage, child brain paralysis, mental retardation and inner organs dysfunction.

Reduce neonatal mortality levels of low economic resources populations.

WHO WILL BENEFIT FROM THIS PROGRAM?

Neonates and children of pregnant mothers from the city of Quevedo, specially the San Camilo parish with an estimated population of 70 000 inhabitants.

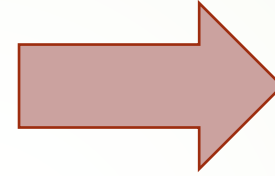

People from urban and rural Quevedo's parishes such as San Carlos and la Esperanza, respectively.

Inhabitants from adjacent cantons like Quinsaloma and Valencia, offering high quality medical service to an extra approximate population of 30 000 people.

DURATION AND SUSTAINABILITY

The Project duration is permanent and undetermined because is an autonomous entity which counts with a infrastructure of their own and medical staff, including volunteer, no volunteers, rotarians and no rotarians.

As well, the institution keeps its activities through a self-management system, which allows to pay costs of medical instruments/materials and nursery personnel.
