

Press Release 11/7/16

CCHS VEX Robotics Tournament – November 5, 2016

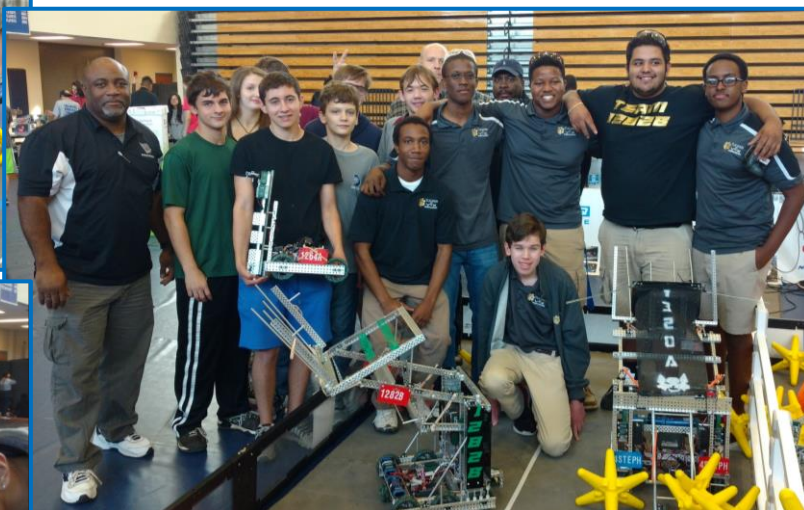

On Saturday, we hosted the first VEX Robotics Tournament for DCSS. Thirty-eight teams showed up from our sister schools in Dekalb County as well as other systems in the metro area. The competition was fierce on the field; however, all participants remained positive. Teams demonstrated excellent “coopertition” by helping each other improve their mechanisms, programming skills, and game strategy throughout the day.

Many thanks for the volunteers that make such an event possible. We had members of the CTAE Advisory Board, the North Atlanta Rotary Club, teachers, & parents from CCHS filling the roles of judges, referees, scorekeepers & others. Our JROTC Color Guard presented our flag and pledge with poise & professionalism. Special

thanks to Mrs. Lennard, Mrs. Nesbit, and Mr. Jones for stepping up and answering our call for help at the 9th hour.

And of course, our core parent volunteers; Mrs. Sims, Mr. Spencer, Mrs. Hubbard, Mr. Copenhagen, & Mr. & Mrs. Richardson. Without the countless hours they put into the planning, organization, and implementation, the event would not have been such a huge success.
