I'm a great believer in luck, and I find the harder I work the more I have of it.

Doing what you like is freedom. Liking what you do

is happiness.

If you want your children to turn out well, spend twice as much time with them, and half as much money.

If we do not feel grateful for what we already have, what makes us think we'd be happy with more?

I'd rather look back at my life and say "I can't believe I did that" instead of saying "I wish I did that."
