THE IMPACT OF ALZHEIMER'S ON THE WORKPLACE

Over **11 million** Americans provide unpaid care for people living with Alzheimer's or other dementias.

6 in 10 caregivers were employed in the past year.

These individuals worked an average of

35 hours per week while caregiving.

57% OF EMPLOYED CAREGIVERS HAD TO GO IN TO WORK LATE, LEAVE EARLY OR TAKE TIME OFF DUE TO CAREGIVING DEMANDS.

18% of caregivers went from full-time to part-time or cut back hours.

Nine percent of caregivers gave up working entirely.

Six percent retired early.

Approximately **one-quarter** of caregivers are in the "sandwich generation" — meaning they care for an aging parent and children under 18.

83% OF CARE AT HOME IS PROVIDED BY FAMILY MEMBERS, FRIENDS OR OTHER UNPAID CAREGIVERS.

Approximately two-thirds of dementia caregivers are **Women**, a role which often competes with employment and other responsibilities.
